

# Datos Curiosos sobre Insectos

Name:

Date:

**Reading Passage**

Los insectos son fascinantes. La abeja es muy importante para las plantas. La mariposa tiene alas de muchos colores. El escarabajo es un insecto muy fuerte. La hormiga puede levantar cosas muy pesadas. La araña hace una telaraña para atrapar a su comida. La mosca tiene miles de ojos pequeños. Y el mosquito es famoso por picar a la gente.
